OBJECTIVE

Innovative and results-driven software engineer with a strong foundation in full-stack development (React, Node.js, Next.js, Express, Flask), cloud infrastructure, and database systems. Adept at designing scalable web solutions and building high-performance applications. Gained invaluable experience in system administration and enterprise technologies through the Huawei ICT competition, fostering a deep understanding of real-world systems engineering. Eager to contribute to groundbreaking work by leveraging a blend of software engineering expertise and hands-on infrastructure knowledge to drive next-generation computing solutions.

EXPERIENCE

- **Async Technology**   January 2024 - March 2024
  Lead UI/UX design for e-commerce platform
  - Designed and developed responsive user interfaces using Figma and Adobe XD, ensuring seamless user experiences across devices
  - Collaborated with developers to enhance accessibility, optimize usability, and align designs with industry best practices.

- **Huawei**   February 2025 - Maybe 2025
  Trainee
  Completed an intensive, hands-on ICT training program focused on Huawei's open-source ecosystem including openEuler (Linux OS), openGauss (enterprise database), and Kunpeng (ARM-based processor architecture).

  Gained deep experience in deploying and optimizing operating systems on ARM hardware using openEuler, and managing high-performance databases with openGauss.

EDUCATION

- **Federal University of Technology Minna**   2025
  Mechanical Engineering

Personal Details

- GitHub ：https://github.com/Codeprince001

TECHNICAL SKILLS

- Frontend Development: React.js, Next.js, Typescript, JavaScript, HTML, CSS
- Backend: Node.js, MongoDB, Flask, Agentic AI Integration
- Design: Figma, Adobe XD, UI/UX Principles
- System Administrator
- DevOps
- Cloud infrastructure engineering

PROJECT

- **Enterprise Administration Management System**
  - Developed and administrative management Dashboard to track employees task progress
  - Stack: React Js, Redux Toolkit, React Router

- **AI meal planner**
  - Developed an AI Meal planner Saas Project
  - Stack: Next Js, React Query, Clerk Auth, Open AI, Stripe

- **Fullstack Blog Web Application**
  - Developed a Fullstack Blog website
  - Stack
    - Backend: Mongodb, Express Js, NodeJs, AWS Storage(S3)
    - Frontend: React Js, Tailwind CSS, Typescript

ACHIEVEMENTS AND AWARDS

- Second Price Huawei Nigeria National Competition, Computing Track 2024-2025
- First Price Computing Track Sub Sahara Regional Award Huawei ICT Competition, 2024 - 2025
- Grand Price Computing Track Global Shenzhen Award Huawei ICT Competition 2024-2025

CERTIFICATIONS

- **Huawei Certified**
  - **HCIA Open Euler**, **HCIA Open Gauss**

- **Google Certified**
  - **Project management, UX Design**

- **Meta Certified**
  - **Front end Development**

- **IBM**
  - **Exploratory Data Analysis For Machine Learning**

- **University of Michigan**
  - **Getting Started with Python**

- **The State University of New York**
  - **Basic Information literacy**

ADDITIONAL INFORMATION

- Strong problem-Solving and Debugging skill
- Good Communication and time management skill
- Adaptability – Learning new frameworks, languages, and tools as technology evolves.
- Time Management and efficiently handling multiple tasks
